BtcTurk Teknoloji

07/2023 – 09/2023

Istanbul, Türkiye

Developed a project which is a web api project that takes data from <https://api.btcturk.com/api/v2/ticker> and presents the hourly prices of selected cryptocurrencies.

## LANGUAGES

### Turkish

Mother Tongue

### English

Professional working proficiency

## CERTIFICATES

### Miuul Python Programming for Data Science

- Certificate ID: hwnwzderdr

### Sıfırdan İleri Seviye Oracle-SQL

- Sertifika No: oKohzWBp1n

## SKILLS

- Oracle-SQL
- Data Warehouse for Business Intelligence
- Data Science/ML
- HTML/CSS/JS
- MySQL
- Node.js
- .NET
- Python

## PROJECTS

### • Crypto Currency Prices API (.NET)

Developed a project which is a web API project that takes data from <https://api.btcturk.com/api/v2/ticker> and presents the hourly prices of selected cryptocurrencies by using ASP.NET.

### • City Advisor app to Travel Planning (Node.js)

Developed simple travel guider app to find best city to travel by choosing desired features by using Node/Express.js and HTML/CSS. Created own database with MySQL made an API and fetch data from API that created.

### • Simple E-Commerce-Application (React.js)

This project is based on React and Context API. It's a simple e-commerce application which users can add grocer products to cart and remove them. Users can login, register and update their user information. Products can be seen in order history page right after payment.

## SOCIAL ACTIVITIES/INTERESTS

- Interested in any kind of sports, curious to traveling.
